

Proposed dividend and motivated statement regarding proposed distribution of profit year 2021 to the shareholders of Castellum AB (publ)

Proposed distribution of profit

The Board of Directors has proposed that the retained profits, amounting to

SEK 18,225,536,070 shall be appropriated as follows:

Dividend to shareholders with SEK 6.90 per share	SEK 1,908,593,185
Carried forward to the new accounts	<u>SEK 16,316,942,885</u>
Sum	SEK 18,225,536,070

The Board of Directors proposes a dividend of SEK 6.90 per share, distributed to the shareholders in two equal payments of SEK 3.45 per share. The first record day for distribution of dividend is proposed to be Monday, March 29, 2021, and the second record day for distribution of dividend is proposed to be Monday, September 27, 2021.

At the date of this proposal, there are 277,262,911 shares in the company, of which 655,203 of the shares are currently owned by the company itself and consequently not entitled to dividend.

Reasons

The group's equity has been calculated in accordance with IFRS standards, approved by the EU, as well as in accordance with Swedish law by application of the recommendation RFR 1 (Supplementary Accounting Rules for groups) by the Swedish Financial Reporting Board. The equity of the parent company has been calculated in accordance with Swedish law and by application of the recommendation RFR 2 (Accounting for Legal Entities) of the Swedish Financial Reporting Board.

The proposed dividend constitutes 56.5 per cent of the group's income from property management, which is in line with the expressed objective to distribute at least 50 per cent of the group's income from property management, having considered investment plans, consolidation needs, liquidity and overall position. The group's net income after tax amounted to MSEK 5,615. The dividend policy is based on the group's income from property management, and as a result non-affecting cash flow increases and/or decreases in value of the group's properties and on interest and currency derivatives, do not normally affect the dividend. Such non-affecting cash flow profit or loss, have neither been taken into account in previous year's resolutions regarding distribution of profit.

The Board of Directors concludes that the company's restricted equity is fully covered after the proposed dividend.

The Board of Directors also concludes that the proposed dividend to the shareholders is justified considering the parameters in section 17 subsection 3, second and third paragraphs of the Swedish Companies Act (the nature, scope and risks of the business as well as consolidation needs, liquidity and overall position). Accordingly, the Board of Directors would like to emphasise the following.

The nature, scope and risks of the business

The Board of Directors estimates that the equity of the company as well as of the group will, after the proposed dividend, be sufficient in relation to the nature, scope and risks of the business. The Board of Directors has in this context considered, inter alia, the historical development of the company and the group, budgeted development, investment plans and the economic situation.

Consolidation needs, liquidity and overall position

Consolidation needs

The Board of Directors has made a general estimation of the financial position of the company and the group, and the possibilities to fulfil their obligations. The proposed dividend constitutes 10.4 per cent of the company's equity and 4 per cent of the group's equity. The group's loan to value ratio and interest coverage ratio 2020 amounted to 44 per cent and 530 per cent respectively. The expressed objective for the group's capital structure, implying a loan to value ratio which not permanently exceeds 50 per cent and an interest coverage ratio of at least 200 per cent, will be maintained after the proposed dividend. The capital structure of the company and the group is sound considering the prevailing conditions of the real property business. In light of the above, the Board of Directors concludes that the company and the group have all the necessary requirements to manage future business risks and also to carry potential losses. Planned investments have been considered when deciding on the proposed dividend.

Liquidity

The proposed dividend will not affect the company's or the group's ability to meet their payment obligations in a timely manner. The company and the group have good access to liquidity reserves through short-term as well as long-term credits. The credits may be utilised at short notice, implying that the company and the group are prepared to handle liquidity fluctuations as well as possible unexpected events.

Overall position

The Board of Directors has considered all other known conditions, which might affect the financial position of the company and the group, which have not been considered within the scope of the considerations above. In this respect, no circumstances have been found that indicate that the proposed dividend would not be justified.

Evaluation to actual value

Derivatives instruments and other financial instruments have been valued to the actual value in accordance with section 4 subsection 14 a of the Swedish Annual Accounts Act. The valuation has presented an undervalue of MSEK 899 after tax, which has affected the equity by the mentioned amount.
