

Report by the Board of Directors of Castellum AB (publ) pursuant to Chapter 13, Section 6 of the Swedish Companies Act

The Board of Directors of Castellum AB (publ) has on April 13, 2016 resolved on a new issue of shares subject to the General Meeting's subsequent approval. In light thereof, the Board of Directors hereby provide the following report pursuant to Chapter 13, Section 6 of the Swedish Companies Act (2005:551).

Since the presentation of the Annual Report for the financial year 2015, no events of material significance for the company's financial position have occurred other than those evident from the following enclosed press releases:

- March 8, 2016
Castellum is evaluating the possibilities of acquiring a significant property portfolio
- March 8, 2016
Castellum completes transaction in Norrköping and Linköping – acquires remaining assets of former Ståhls
- March 17, 2016
Annual General Meeting in Castellum AB (publ)
- April 4, 2016
Castellum creates new group structure with stronger local focus and consolidates all group companies under one brand
- April 13, 2016
Castellum's Interim Report January–March 2016: Strong growth in income from property management and positive property-value development
- April 13, 2016
Castellum acquires Norrporten and carries out a rights issue as well as a directed share issue to the Second and Sixth Swedish National Pension Funds

Stockholm, April 13, 2016

Castellum is evaluating the possibilities of acquiring a significant property portfolio

With reference to Nasdaq Stockholm's decision on 7 March 2016 to halt the trading in the shares of Castellum AB (publ) and all other instruments connected to the shares as well as Castellum's bonds at 17:05 CET on the same date until further notice pursuant to Chapter 22, Section 1, first paragraph of the Swedish Securities Market Act, Castellum confirms that it is currently evaluating the possibilities of acquiring Norrporten's property portfolio.

Castellum is one of Sweden's largest real property companies with a total property value of SEK 42 billion. One of Castellum's characteristics is the goal to develop its property portfolio by yearly net investments of 5% of the property value. There are many business opportunities for Castellum and the company therefore evaluates potential acquisitions and divestments of properties in order to develop its property portfolio on a continuous basis. Such a business opportunity is an acquisition of Norrporten's property portfolio, which the company, therefore, is also currently evaluating. At present, there is, however, no additional information to announce, but the company intends to inform the market if the on-going evaluation results in the company carrying out an acquisition.

Castellum has engaged Carnegie Investment Bank in connection with the evaluation.

Castellum AB (publ) publishes this information in compliance with the Swedish Securities Market Act and/or the Swedish Act on Trading in Financial Instruments.

Castellum is one of the major listed real estate companies in Sweden. The fair value of the real estate portfolio amounts to approx. SEK 42 billion, and comprises premises for office, retail, warehouse and industrial purposes with a total lettable area of approx 3.4 million sq.m. The real estate portfolio is owned and managed by six wholly owned subsidiaries with strong local roots in five growth regions: Greater Gothenburg, the Öresund Region, Greater Stockholm, Mälardalen and Eastern Götaland.

In 2015, Castellum sustainability performance was awarded two top distinctions: the World Green Building Council's award Business Leadership in Sustainability and "Green Star 2015" by GRESB. This means that Castellum is one of the highest ranking companies in the world in the real estate sector.

Castellum is listed on Nasdaq Stockholm AB Large Cap.

Castellum completes transaction in Norrköping and Linköping – acquires remaining assets of former Ståhls

Castellum AB (publ) has acquired the remaining 50% of CORHEI Fastighets AB (previously Henry Ståhl Fastigheter AB), through Fastighets AB Corallen, a wholly-owned subsidiary. Underlying real estate values amount to SEKm 2,083; the shares were acquired for SEKm 555.

The transaction means that Castellum takes over sole ownership of CORHEI's full stock of properties, comprising 13 properties in Norrköping and 9 properties in Linköping, thereby fully integrating operations earlier than initially planned.

On April 13th, 2015, Castellum AB and Heimstaden AB (publ) published news of a transaction, which entailed Castellum's acquisition of 50% of the shares in the former Henry Ståhl Fastigheter AB (present CORHEI Fastighets AB) from Heimstaden AB. At that time, an optional agreement was struck, whereby Castellum could acquire the remaining 50% of the new company earliest after 18 months, starting November 29, 2016. Heimstaden held a counter-option to sell the remaining 50%, after Castellum's option period expired. Castellum has today acquired the remaining stock earlier than planned when both signing and change of possession has taken place.

The transaction consists of 111,480 sq.m. in Norrköping, comprising 12 centrally located office buildings, and a well-located logistics property. The real estate acquired in Linköping amounts to 51,024 sq.m., spread over 9 office properties, including six located in the city centre, two in the Mjärdevi area and one near the Tornby area.

Occupancy rate is 84%. The average leasing period is 4.1 years. Rental incomes for the full year 2016 are expected to reach SEKm 159. Major tenants include Sectra, Brandel Invest & Förvaltning AB, Swedbank and KunskaPsskolan.

“This deal provides us with a significant position in Norrköping and Linköping”, says Henrik Saxborn, Castellum CEO. “We’re here to stay, and to continue developing; one project is already on the way, and we envision several interesting possibilities”.

Castellum has long-term, unutilized credit agreements for approx. SEK 5.6 billion, some of which will be accessed for this investment.

Castellum AB (publ) publishes this information in compliance with the Swedish Securities Market Act and/or the Swedish Act on Trading in Financial Instruments.

Annual General Meeting in Castellum AB (publ)

At the Annual General Meeting (AGM) in Castellum AB (publ) on March 17, 2016, the Board of Directors' proposal of a dividend of SEK 4.90 was confirmed. Monday March 21, 2016 was decided as record day for dividend.

The AGM decided to re-elect the present members of the Board of Directors Charlotte Strömberg, Per Berggren, Anna-Karin Hatt, Christer Jacobson, Nina Linander and Johan Skoglund. Christina Karlsson Kazeem was elected as new member of the Board of Directors. Charlotte Strömberg was re-elected as Chairman of the Board of Directors. Further the AGM decided that the level of remuneration to the members of the Board of Directors shall be the following:

- The Chairman of the Board of Directors: SEK 720,000.
- Other members of the Board of Directors: SEK 315,000.
- Member of the Board of Directors' Remuneration Committee, including the Chairman: SEK 30,000.
- Chairman of the Board of Directors' Audit and Finance Committee: SEK 50,000.
- Other members of the Board of Directors' Audit and Finance Committee: SEK 35,000.

The decisions entail that the total remuneration to the members of the Board of Directors, including remuneration for work in the Remuneration Committee and the Audit and Finance Committee, amounts to SEK 2,820,000.

The AGM decided to appoint a new Election Committee for the AGM in 2017 according to previously applied model.

The AGM adopted the Board of Directors' proposal regarding the guidelines of remuneration for senior executives. Further the AGM adopted the Board of Directors' proposal regarding a renewal of the incentive program for the members of the executive management.

The AGM decided to authorize the Board – in order to adapt the company's capital structure and be able to transfer own shares as a payment or financing of real property investments – if required until the next AGM, to resolve on acquisition and transfer of own shares.

In 2015, Castellum sustainability performance was awarded two top distinctions: the World Green Building Council's award Business Leadership in Sustainability and "Green Star 2015" by GRESB. This means that Castellum is one of the highest ranking companies in the world in the real estate sector.

Castellum is listed on Nasdaq Stockholm AB Large Cap.

Castellum creates new group structure with stronger local focus and consolidates all group companies under one brand

Castellum will consolidate all group companies under the Castellum brand and establish a new structure for its operations. The six subsidiaries will become four regions: West, Stockholm, Central and Öresund. Efforts will be initiated in parallel with this to create a more uniform organisation, shared support functions and qualitative, efficient support processes. Castellum will also launch several strategic initiatives to develop next generation cities.

"We are now taking Castellum to the next level and setting the structure for our continued growth. This change will strengthen our local decision-making power and speed, while also taking better advantage of our size and market trends in order to grow, develop our business and deliver value to our shareholders," says Henrik Saxborn, CEO of Castellum AB.

Group structure will be simplified by reorganising the six subsidiaries into four regions:

- Eklandia Fastighets AB and Harry Sjögren AB will be consolidated to form the West Region within Castellum, to be led by Cecilia Fasth.
- Fastighets AB Corallen and Aspholmen Fastigheter AB will be consolidated to form the Central Region within Castellum, to be led by Claes Larsson.
- Fastighets AB Brostaden will become the Stockholm Region within Castellum, to be led by Anders Nilsson.
- Fastighets AB Briggen will become the Öresund Region within Castellum, to be led by Ola Orsmark.

The common brand and simplified structure will generate business opportunities by improving clarity in contacts with customers, suppliers, current and potential employees and other external stakeholders. Local focus will be strengthened by giving the local business area managers a more prominent role, and changes in customer needs will be met by developing shared specialist functions, thereby leveraging the group's size.

Claes Junefelt, former CEO of Fastighets AB Corallen, will remain Castellum's Head of Project Development within the Central Region. Christer Sundberg, former CEO of Harry Sjögren AB, will retire this spring as previously announced.

The new group structure and the common brand will be established during 2016. Changes will be preceded by union negotiations.

Castellum's Interim Report January-March 2016:

Strong growth in income from property management and positive property-value development

- **Rental income for the period January-March 2016 amounted to SEKm 855 (SEKm 801 corresponding period previous year).**
- **Income from property management amounted to SEKm 366 (338), corresponding to SEK 2.23 (2.06) per share, an increase of 8%. Income has been charged with approx. SEKm 13 for non-recurring costs related to ongoing transactions and the recent reorganization. Excluding those costs the increase would have been 12%.**
- **Changes in value on properties amounted to SEKm 489 (329) and on derivatives to SEKm -148 (-102).**
- **Net income after tax for the period amounted to SEKm 577 (451), corresponding to SEK 3.52 (2.75) per share.**
- **Net investments amounted to SEKm 2,442 (1,039) of which SEKm 335 (295) were new constructions, extensions and reconstructions, SEKm 2,110 (822) acquisitions and SEKm 3 (78) sales. The investments include acquisition of the remaining 50% of the shares in CORHEI Fastighets AB (former Ståhls) with a property value of SEKm 2,083.**
- **After the reporting period, Castellum announced that in 2016 the company will bring the whole Group together under the single brand name Castellum and create a new operational structure. The change creates conditions for further growth, enhanced local presence and empowerment.**

“The first quarter was characterized by strong growth in income from property management as well as positive value growth in the portfolio”, says Henrik Saxborn, CEO of Castellum. “Expediting a completed acquisition of Ståhls to March of this year will promote continued income growth from property management”.

“With the launch of a new corporate structure we’ll take Castellum to the next level under a joint brand – Castellum. We focus on strengthening local decision-making and increased delivery speed, as well as common support processes and initiatives in a number of strategic areas such as project development, sustainability and digitalization in order to increase our growth potential”, continues Saxborn.

For more detailed information about Castellum see www.castellum.se.

Taking Castellum to the next level!

Castellum's organization will be transformed throughout 2016. We'll take Castellum to a new level when it comes to local proximity, more efficient and effective common support systems, future development and close cooperation among various Group units. We take the digital world seriously: utilize Castellum's state-of-the-art tools and competence to create an even more attractive business partner and an even stronger employer of choice.

Instead of having six separate subsidiaries, we'll be working through four regions and under a single brand: Castellum. The regions West, Mid, Stockholm and Öresund cover our eighteen local working areas, each of which will receive increased empowerment to make and carry out business decisions. Property value in these regions adds up to SEK 8-15 billion, where West accounts for the highest values and Öresund for the lowest.

I'm convinced that this change will be on track for improved market penetration and increased cost efficiency. Our ongoing savings program is already expected to result in an annual boost of SEKm 30, and that figure will increase over the next year under this planned reorganization. More importantly, we expect significant long-term effects on the revenue side. All of this in order to create greater shareholder value: increased total return on equity investment.

Major projects

The first quarter also included major transactions. In March, 10 months earlier than planned, we acquired the remaining 50% of Ståhls for approx. SEKm 555. Properties totalling more than SEK 2 billion were thus added to Castellum's balance sheet with an annual income from property management of SEKm 55. In addition, this transaction leads to faster, more efficient and more effective coordination, as well as facilitating investment decisions for potentially interesting new projects in Linköping and Norrköping.

During the first quarter, investments totalled SEKm 2,442, of which SEKm 335 relates to projects. The project portfolio already includes several major projects. Current intensive efforts are also in progress to increase the volume of future projects, and it is our intention to begin several new office and logistics projects over the next 12 months.

In Uppsala, for example, work will soon begin on Kungspassagen – a high-quality office building next to the railway station. The building encompasses approx. 7,600 sq.m., is already 40% leased and currently awaits zoning decisions.

Growth close to the target

During Q1, income from property management increased by 8% to SEK 2.23 per share – after consulting costs (non-recurring) for ongoing transactions as well as for the reorganization.

Net leasing hovered around zero, mainly due to two terminations. There is every expectation that these attractive properties will soon be rented out again. Projects contributed positively to net leasing. The focus is now increasingly on the renegotiation of existing agreements, which are expected to increase future rental levels. Vacancy rates remained at the year-end level, approx. 10%.

The long-term net asset value, the shareholders' equity that we manage, increased to SEK 130 per share, despite a dividend of SEK 4.90 during the period. Alongside income from property management, the increase in property value contributed SEKm 486, or SEK 3 per share.

I'm convinced that Castellum will sustain this positive development, thereby achieving our growth objective of 10% in income from property management. Over time, this will result in continued high dividend growth as well as enhancing share value – i.e. providing a competitive total yield – for our shareholders.

Henrik Saxborn
CEO

STRATEGY

Mission and vision

One of the largest real estate companies, while remaining equipped to act as close to the market as the smallest.

Business concept

To develop and add value to the real estate portfolio, focusing on the best possible earnings and asset growth, by offering customized commercial properties, through a strong and clear presence in five growth regions.

Business model

Investments and development of commercial premises managed in a decentralized and customer-focused organization. Castellum focus on cash-flow and operates with low financial risk.

Sustainable business

Castellum has a dedicated focus on long-term efforts and strategies, and this goes hand-in-hand with all sustainability perspectives. Business operations are to contribute to sustainable development taking ecological, social and economic aspects into account. It's crucial for the long-term success of the company that operations are conducted in a responsible manner, wherein all actions should be characterized by high skills levels, high ethical standards and a high, hands-on sense of responsibility.

By being locally present and engaged in the cities where the company operates, prosperous environments can be built, developed and managed. Castellum is to be financially strong, as this enables us to act wisely, with a long-term perspective.

Sustainability efforts are focused on:

- taking responsibility for, and contributing to, the development of the communities wherein we operate
- utilizing resources efficiently and effectively
- maintaining a sustainable real estate portfolio
- cooperating with other stakeholders to promote development

Development of commercial properties in growth regions

Castellum's real estate portfolio is located in the five growth regions Greater Gothenburg, Öresund Region, Greater Stockholm, Mälardalen and Eastern Götaland. This, together with rational property management and a strong presence in the market, provides for good business opportunities.

The real estate portfolio will consist of commercial properties with general and flexible premises for office, retail, warehouse, logistics and industry purposes.

The real estate portfolio will be continuously enhanced and developed in order to improve cash flow. Castellum will continue to grow with customer demand, mainly through new constructions, extensions and reconstructions but also through acquisitions.

All investments will contribute to the objective of growth in income from property management within 1-2 years and have a potential asset growth of at least 10%. Sales of properties will take place when justified from a business standpoint.

Customer focus through local organizations

Castellum will be perceived as a customer focused company. This is achieved by developing long-term relations and supplying premises and services meeting customer demands.

Service and property management will be delivered by a decentralized organization with strong local presence. Property management will be carried out mainly by our own employed personnel.

Castellum shall have skilled and committed employees, which is achieved by being an attractive workplace with good development possibilities.

Strong balance sheet with low financial risk

Castellum will have low financial risk. The chosen risk key ratios are loan to value and interest coverage ratio.

Castellum will work for a competitive total return on the company's share relative to risk and also strive for high liquidity. All actions will be made from a long-term perspective and the company will hold frequent, open and fair reports to shareholders, the capital and credit markets and the media, without disclosing any individual business relationship.

Purchase or transfer of own shares will be available as a method for adjusting the company's capital structure to the company's capital need and as payment or funding of real estate investments. Company owned shares may not be traded for short term purpose of capital gain.

Castellum's real estate portfolio has a geographical distribution covering five growth regions and will consist of various types of commercial premises. The risk within in the customer portfolio will be kept low.

STRATEGIC TOOLS

- In order to achieve the overall objective of 10% cash-flow growth, i. e. income from property management per share, annual net investments of at least 5% of the property value will be made. This is currently equivalent to approx. SEK 2 billion.
- One of the three largest real estate owners in each local market.

OUTCOME

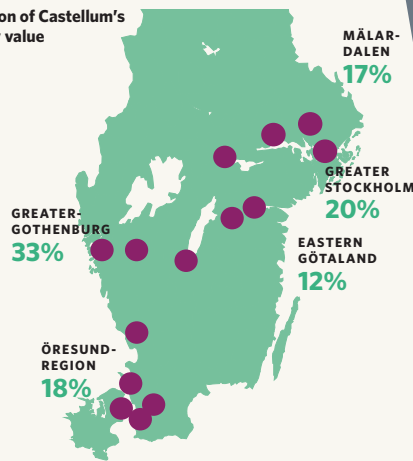

SEKm 2,442

Net investments first quarter 2016

Proportion of Castellum's property value

NKI 80
NMI 85

Objective 10%

Castellum's overall objective is an annual growth in cash-flow, i.e. income from property management per share, of at least 10%

Growth Q1 2015: 8%

- Loan to value ratio not permanently exceeding 55%. Interest coverage ratio of at least 200%.
- At least 50% of pre-tax property management income will be distributed. Investment plans, consolidation needs, liquidity and financial position in general will be taken into account.
- Castellum will be one of the largest listed real estate companies in Sweden.
- Risk within the customer portfolio will be kept low using diversification over many fields of business, length and size of contracts.

Loan to value ratio

50%

Customers and Organization

Customers - a reflection of the diverse Swedish economy

Castellum holds approx. 4,700 commercial contracts, with good risk diversification regarding size of contracts, geography, type of premises, length of contracts and various customer industries. The single largest contract corresponds to approx. 2% of Castellum's total rental income.

Nine out of ten customers recommend Castellum

It is important that Castellum meets customer expectations: we deliver what we promise. An external customer survey is therefore carried out annually, the Satisfied Customer Index. The latest survey, conducted in 2015, showed continued and consistent high marks for Castellum, with a weighted index of 80. This is higher than the industry benchmark of 75.

Nine out of ten customers surveyed, 88%, replied that they want to lease from Castellum again and gladly recommend Castellum as a landlord to others.

High leasing activity

Castellum's leasing activity is high. During the first quarter 2016, the organization has signed 181 new leases with a total annual value of SEKm 102. Robust leasing activities indicate the importance of taking care of customers and networks.

A decentralized and small-scale organization infers deep local knowledge and interaction

Castellum owns and manage the Group properties in a decentralized organization, and this results in close relationships with customers, short decision-making processes and local empowerment to make and carry out business decisions.

Each subsidiary is involved in the local business community through business associations where important contacts are forged with both current and prospective customers. Castellum, as one of the largest real estate owners on each local market, also contributes to regional development. Local subsidiaries operate through cooperation with municipalities and universities/colleges.

Satisfied employees

Castellum works actively to recruit and retain top-notch employees by offering a stimulating work environment, competence development and experience sharing.

Employee viewpoints about Castellum are regularly measured and the latest survey, conducted in 2014, shows

a continued high index, 85 on a 100-point scale. This indicates that employees are satisfied with their work situation and have high confidence in the company and management.

Castellum has about 300 employees.

Sustainable business

Castellum's sustainability efforts is based on continuous improvements with focus on the efficient use of resources, a sustainable real estate portfolio and sustainable collaborations, as well as on social commitment and responsibility.

The Code of Conduct is the foundation of that Castellum's operations are conducted in a responsible way and the objective is to make sound and proper business decisions in all respects, high business morality, good business ethics, responsibility awareness and impartiality.

Our contribution to positive development in the communities where Castellum is active involves various forms of ongoing collaborations. These include joint projects with customers, business colleagues, municipalities and educational institutions. During 2015, 75 young people received their introduction to working life through our apprenticeship program, as holiday workers, interns or trainees.

The energy consumption use in Castellum is approx. 43% lower than the sector average. 20% of the property-portfolio is environmental classified according til Green Building, Miljöbyggnad or BREEAM.

In September 2015, Castellum was awarded "Green Star 2015" by GRESB (Global Real Estate Sustainability Benchmark). "Green Star 2015" means that Castellum was awarded the highest rating in the global rating for industry-leading sustainability efforts in the category of office and industrial properties. GRESB is an international industry-driven organization committed to enhancing and protecting shareholder value through annual assessment of sustainability activities in real estate sectors around the world. Over 700 real estate companies and funds participated in the 2015 assessment.

Castellum has also been awarded the World Green Building Council's top distinction, Business Leadership in Sustainability during 2015. The award promotes leading sustainable businesses and inspires best practice in sustainable construction, corporate engagement and sustainable projects.

Market comments

Swedish economy

The Swedish economy continues its improvement trend, with strong GDP growth that is expected to hold steady throughout the remainder of 2016. Growth is still primarily driven by investments and domestic, private consumption. Construction and infrastructure investments in Sweden remain at high levels. Service exports have developed rapidly in the recent past, and now, goods exports have also started to demonstrate increased demand. However, geopolitical turmoil continues to dampen the mood – mainly for industry.

Higher public spending – resulting from the influx of asylum seekers – is also expected to contribute to GDP growth. Increased transfers help maintain household consumption levels. Despite higher tax revenues, the anticipated rise in public spending will lead to an increased deficit in public finances during the year.

The labour market has been positively affected by the stronger economy. Labour shortages are expected for several groups, primarily within construction and the public sector. However, employment increases are expected to affect the unemployment rate only marginally. Inflation has begun to show signs of rising, but still remains low, due to subdued commodity prices and low inflation abroad. Development of the krona exchange rate plays a key role for inflation in Sweden, where a stronger exchange rate dampens inflation.

Macro indicators

Unemployment	7.6%	(February 2016)
Inflation	0.8%	(March 2016 compared to March 2015)
GDP growth	1.3%	(Q4 2015 compared to Q3 2015)

Source: SCB

Rental market

In general, the rental market was stronger during Q1 2016 compared to Q1 2015, and demand was high for both new constructions and existing premises. As a result, occupancy rates increased and the supply of office space, particularly in central locations, did not line up with demand. A slight increase in rental levels was noted for central locations as well as for areas immediately adjacent to central locations, primarily due to limited supply.

The supply of new space is relatively stable, especially in Stockholm and Gothenburg, but the new spaces do not cover current demand. In Malmö, demand for office space is still lower than the construction of new office space, and this mainly affects vacancy rates and the existing portfolio.

Overall, the logistics market is growing in Sweden's established logistics hubs, and vacancy rates are low in these centres. The need for newly built, modern, logistics facilities is great, and there are plans for several logistics facilities in Gothenburg – both with and without tenants before construction start.

Property market

The Swedish real estate market continued to be attractive, and the transaction volume for the first quarter amounted to SEK 25 billion (25). The market continues to be characterized by intense competition, where supply is not in balance with demand. This means that property prices have continued to increase and yield requirements have decreased.

Demand from foreign buyers continued to increase during the quarter, and non-Swedish nationals accounted for 29% (22%) of the transaction volume. Swedish real estate companies remained the largest investors. Foreign-buyer acquisitions were mainly in the segments of office, retail and logistics.

Completed transactions took place throughout the country and in most segments. However, it can be noted that interest was strongest for office and retail properties and somewhat lower for warehouse and logistics facilities. Commercial properties represented approximately 83% (77%) of the total transaction volume.

Interest and credit market

Since 2015, the Riksbank has clearly focused on an inflation target of 2% and conducted an extremely expansionary monetary policy. The Swedish Riksbank has also taken historic decisions – most recently in February 2016 – when the repo rate was lowered to -0.50%. The Riksbank has also announced further purchases of government bonds, thereby damping longer-term interest rates. The Riksbank believes that inflation is trending to a slight rise, but it is still considered too low. The repo rate path has gradually been adjusted downwards, and the Riksbank now believes that the repo rate will not be positive until the beginning of 2018.

The 3-month Stibor rate – a significant factor for Castellum – rose slightly in late 2015 and early 2016 but then fell rapidly to historic lows after the Riksbank's cut in February. It has since remained relatively stable.

The spread between short and long-term interest rates decreased early in the year, due to decreasing long-term interest rates. Current long-term interest rates are also at record low levels.

Access to bank financing and capital market financing is considered favourable and relatively favourable, respectively. Credit margins on the capital market were considered higher in the latter part of 2015 and were seen to continue increasing slightly in 2016. However, the recent number of bonds issued in the Swedish corporate bond market has been low, and access to capital market financing is mainly found through short maturities. Credit margins for bank financing, which increased slightly at the end of 2015, are expected to either remain relatively stable or to continue rising somewhat.

Income, Costs and Results

Comparisons, shown in brackets, are made with the corresponding period previous year except in parts describing assets and financing, where comparisons are made with the end of previous year. For definitions see Castellum's website www.castellum.se

Income from property management, i.e. net income excluding changes in value and tax, amounted for the period January-March 2016 to SEKm 366 (338), equivalent to SEK 2.23 (2.06) per share - an increase with 8%. Income from property management rolling four quarters amounted to SEKm 1,561 (1,465) equivalent to SEK 9.52 per share (8.93) - an increase of 7%.

During the period, changes in value on properties amounted to SEKm 489 (329) and on derivatives to SEKm -148 (-102). Net income after tax for the period was SEKm 577 (451), equivalent to SEK 3.52 (2.75) per share.

Rental income

Group's rental income amounted to SEKm 855 (801). For office and retail properties, the average contracted rental level, including charged heating, cooling and property tax, amounted to SEK 1,356 per sq.m., whereas for warehouse and industrial properties, it amounted to SEK 808 per sq.m. Rental levels, which are considered to be in line with the market, have in comparable portfolio increased by approx. 1.5% compared with previous year, which inter alia is an effect from indexation and can be compared with the usual industry index clause (October to October), which was 0.1% in 2016. Castellum's higher indexation is due to the Groups focus on index clauses with minimum upward adjustment in the contract portfolio, which offers protection against low deflation and inflation.

The average economic occupancy rate was 90.3% (88.7%). The total rental value for vacant premises on yearly basis amounted to approx. SEKm 432 (436).

The rental income for the period includes a lump sum of SEKm 4 (3) as a result of early termination of leases.

Gross leasing (i.e. the annual value of total leasing) during the period was SEKm 102 (85), of which SEKm 27 (9) were leasing of new constructions, extensions and reconstructions. Notices of termination amounted to SEKm 102 (64), of which bankruptcies were SEKm 8 (2) and SEKm 0 (1) were notices of termination with more than 18 months remaining length of contract. Net lease for the period was hence SEKm 0 (21).

The time difference between reported net leasing and the effect in income thereof is estimated to be between 9-18 months.

Property costs

Property costs amounted to SEKm 299 (283) corresponding to SEK 354 per sq.m. (336). Consumption for heating during the period has been calculated to 99% (86%) of a normal year according to the degree day statistics.

Property costs SEK/sq.m	Office/ Retail	Warehouse/ Industrial	2016 Total	2015 Total
Operating expenses	234	147	196	185
Maintenance	46	21	35	30
Ground rent	4	7	5	8
Real estate tax	70	23	50	50
Direct property costs	354	198	286	273
Leasing and property administration	-	-	68	63
Total	354	198	354	336
Previous year	333	198	336	

Central administrative expenses

Central administrative expenses totalled SEKm 42 (29) and has during the period been charged with SEKm 13 for non-recurring costs related to ongoing transactions and reorganization. This also includes costs for a profit-and-share-price related incentive plan for 10 persons in executive management of SEKm 3 (4).

Rental value and economic occupancy rate

Net leasing

Income from joint ventures

Income from joint ventures for the period January-February amounted to SEKm 3 (-) and refers to Castellum's 50% share of the income in CORHEI Fastighets AB (former Ståhls). For more information, see the section Joint venture on page 14.

Of this income, SEKm 4 refers to income from property management and SEKm -1 to tax.

Net interest

Net interest items were SEKm -152 (-151). The average interest rate level was 2.9% (3.2%). Net financial income was positively affected by approx. SEKm 15 due to the average interest rate level decrease by 0.3%-units.

Changes in value

The real estate market is characterized by continued high activity, strong demand and continued limited supply, resulting in rising prices. The price increase is mainly attributable to centrally located office properties in growth areas. This price rise is reflected in Castellum's internal valuation through a decrease in required yield, which at portfolio level corresponds to about 4 percentage points. This, primarily in combination with project profits and improved cash flow results, resulted in a change in value of SEKm 486, corresponding to 1%, for the first quarter. Also included was an additional payment, received during the quarter, of SEKm 3 for a previously sold property. As each property is valued individually, the portfolio premium that can be noted in the property market is not taken into account.

The value in the interest derivatives portfolio has changed by SEKm -149 (-99), mainly due to changes in long-term market interest rates. Castellum's currency derivatives has during the period changed SEKm -5 (9) where the effective part of the value change of SEKm -6 (12) is accounted for in other total net income.

Tax

The nominal corporate tax rate in Sweden is 22%. Due to the possibility to deduct depreciation and reconstructions for tax purposes, and to utilize tax loss carry forwards, the paid tax is low. Paid tax occurs since a few subsidiaries have no possibilities to group contributions for tax purpose.

Remaining tax loss carryforwards can be calculated to SEKm 1,169 (809). Fair values for the properties exceed their fiscal value by SEKm 23,939 (22,239) of which SEKm 1,890 (1,893) relates to the acquisition of properties accounted for as asset acquisitions. As deferred tax liability, a full nominal 22% tax of the net difference is reported, reduced by the deferred tax relating to asset acquisitions, i.e., SEKm 4,593 (4,299).

Castellum has no current tax disputes.

Real Estate Portfolio

The real estate portfolio is located in Greater Gothenburg, the Öresund Region, Greater Stockholm, Mälardalen and Eastern Götaland. The main focus, which represents approx. 70% of the portfolio, is in the three major urban regions.

The commercial portfolio consists of 69% office and retail properties as well as 27% warehouse and industrial properties. The properties are located from inner city sites to well-situated working-areas with good means of communication and services. The remaining 4% consist of projects and undeveloped land.

Castellum owns approx. 780,000 sq.m. of unutilized building rights and furthermore ongoing projects with remaining investments of approx. SEKm 1,500.

Investments

During the period, investments totalling SEKm 2,445 (1,117) were carried out, of which SEKm 355 (295) were new constructions, extensions and reconstructions and SEKm 2,110 (822) were acquisitions. Of the total investments SEKm 2,103 refer to Eastern Götaland, SEKm 112 to Greater Gothenburg, SEKm 99 to Mälardalen, SEKm 73 to the Öresund Region and SEKm 58 to Greater Stockholm. After sales of SEKm 3 (78) net investments amounted to SEKm 2,442 (1,039).

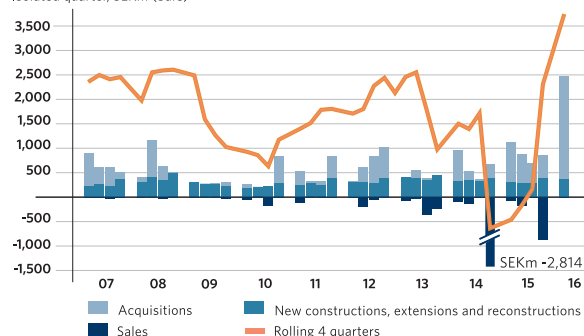

During the period Castellum acquired the remaining 50% of the shares in CORHEI Fastighets AB (former Ståhls) corresponding to a property value of SEKm 2,083. During the last quarter of 2015 agreements have also been concluded for the acquisition of two office properties under construction, one in Hyllie in Malmö for SEK 426 with change of possession scheduled to April 2016,

and one in Hagastaden, Stockholm for SEK 1.6 billion with change of possession scheduled to February 2017. The properties will be accounted for when the change of possession has taken place due to the agreements which is conditional upon i.e. completion.

Property value

Internal valuations

Castellum assesses the value of the properties through internal valuations, as at the year-end, corresponding to level 3 in IFRS 13. The valuations are based on a 10-year cash flow based model with an individual valuation for each property of both its future earnings capacity and the required market yield. In the valuation of a property's future earnings capacity, consideration has been taken of potential changes in rental levels, occupancy rates and property costs - as well as an assumed inflation level of 1.5%.

Projects in progress have been valued using the same principle, but with deductions for remaining investments. Properties with building rights have been valued on the basis of an estimated market value per square metre, on average approx. SEK 1,700 (1,700) per sq.m.

In order to ensure and validate the quality of the internal valuations, an external valuation - representing over 50% of the portfolio - is made every year-end. The difference between the internal and external valuations has historically been small.

Based on these internal valuations, property value at the end of the period were assessed to SEKm 44,773 (38,951), corresponding to SEK 12,506 per sq.m.

Average valuation yield, SEKm

(excl. project/land and building rights)	Mkr

The table above relates to the properties owned by Castellum at the end of the period and reflects the income and costs of the properties as if they had been owned during the period. The discrepancy between the net operating income of SEKm 571 accounted for above and the net operating income of SEKm 556 in the income statement is explained by the adjustment of the net operating income of SEKm 15 on properties acquired/completed during the year which are recalculated as if they had been owned or completed during the whole period.

Property related key ratios

Joint venture

In Q2 2015, Castellum AB (publ) closed a deal with Heimstaden AB (publ), which meant that Castellum acquired 50% of the property management company CORHEI Fastighets AB (previously Ståhls) for SEKm 505. Castellum gained access in May/June 2015. The agreement provided an opportunity to acquire, through an option, the remaining 50% at market value. This option was used during Q1 2016: Castellum has thereby owned 100% of CORHEI Fastighets AB since the beginning of March this year. The acquisition price for the remaining 50% amounted to SEKm 555.

The acquisition constitutes a company acquisition in phases, resulting in a revaluation of SEKm 27 of the 50% already owned. The revaluation is the difference between the purchase price paid, SEKm 555, and the previously recognized net asset value of SEKm 528 on the access date in March. As a result of the stepwise company acquisition, there is a goodwill entry of SEKm 140, corresponding to the net deferred tax liability.

Financing

Castellum shall have a low financial risk, meaning a loan to value ratio not permanently exceeding 55% and an interest coverage ratio of at least 200%. Castellum's assets had on March 31, 2016, a value of SEKm 45,454 (42,652) and are financed by shareholders' equity of SEKm 15,556 (15,768), deferred tax liabilities of SEKm 4,593 (4,299), interest bearing liabilities of SEKm 22,650 (20,396) and non interest bearing liabilities of SEKm 2,655 (2,189).

Interest bearing liabilities

At the end of the period Castellum had binding credit agreements totalling SEKm 31,822 (30,325) of which SEKm 25,860 (25,141) was long term and SEKm 5,962 (5,184) short term.

During the period MTN of nominally SEKm 100 were issued and credit agreement of SEKm 2,000 were repurchased and/or extended. Furthermore CORHEI's financing amounting SEKm 1,069 has been included in Castellum's interest bearing liabilities.

After deduction of cash of SEKm 150 (39), net interest bearing liabilities were SEKm 22,500 (20,357), of which SEKm 6,597 (6,499) were MTN and SEKm 3,487 (3,157) outstanding commercial papers. (Nominal SEKm 6,600 respectively SEKm 3,491.)

Most of Castellum's loans are short-term revolving loans, utilized in long-term binding credit agreements in Nordic banks. This means great flexibility. Bonds issued under the MTN program and the commercial papers are a complement to the existing funding in banks and broaden the funding base. At the end of the period the fair value of the liabilities is in principle in line with the value accounted for.

Long-term loan commitments in banks are secured by pledged mortgages in properties and/or financial covenants. Outstanding commercial papers and bonds under the MTN-program are unsecured.

Net interest bearing liabilities amounted to SEKm 22,500 (20,357) of which SEKm 12,416 (10,460) were

secured by the company's properties and SEKm 10,084 (9,897) unsecured. The proportion of used secured financing was thus 28% of the property value.

The financial covenants state a loan-to-value ratio not exceeding 65% and an interest coverage ratio of at least 150%, which Castellum fulfils with comfortable margins, 50% and 338% respectively. The average duration of Castellum's credit agreements was 3.1 years (3.1). Margins and fees on long-term credit agreements had an average duration of 3.1 years (3.1).

Credit maturity structure 31-03-2016

Total	31,822	12,416	10,084	22,500

Unutilized credit in long term credit agreements (more than 1 year) **3,360**

Interest rate maturity structure

In order to secure a stable and low net interest cash flow the interest rate maturity structure is distributed over time. The average fixed interest term on the same date was 2.6 years (2.5). The average effective interest rate as per March 31, 2016 was 2.8% (2.9%).

Castellum utilizes interest rate derivatives to achieve the desired interest rate maturity structure. Interest rate derivatives is a cost effective and flexible way to achieve the desired fixed interest term. In the interest rate maturity structure, interest rate derivatives are accounted for in the earliest time segment in which they can mature.

Credit margins and fees are distributed in the table by reported underlying loans.

Distribution of interest bearing financing 31-03-2016

Currency

Castellum owns properties in Denmark with a value of SEKm 979 (954), which means that the Group is exposed to currency risk. The currency risk is primarily related to when income statement and balance sheet in foreign currencies are translated into Swedish kronor.

Interest rate and currency derivatives

Castellum utilizes interest rate derivatives to achieve the desired interest rate maturity structure. According to the accounting standard IAS 39, derivatives are subject to market valuation. If the agreed interest rate deviates

from the market interest rate, notwithstanding credit margins, there is a theoretical surplus or sub value in the interest rate derivatives where the non-cash-flow affecting changes in value are reported in the income statement. At maturity, a derivative's market value is dissolved in its entirety and the change in value over time has thus not affected equity. Castellum also has derivatives in order to hedge currency fluctuation in its investment in Denmark. As for currency derivatives, a theoretical surplus/sub value occurs if the agreed exchange rate deviates from the current exchange rate, where the effective portion of value changes is accounted for in other total income.

To calculate the market value of derivatives, market rates for each term and, where appropriate, exchange rates, as quoted on the market at the closing date are used. Interest rate swaps are valued by discounting future cash flows to present value while instruments containing options are valued at current repurchase price.

As of March 31, 2016, the market value of the interest rate derivatives portfolio amounted to SEKm -1,273 (-1,124) and the currency derivative portfolio to SEKm 2 (7). All derivatives are, as at the year end, classified in level 2 according to IFRS 13.

Castellum's financial policy and commitments in credit agreements

	Policy	Commitment	Outcome
Loan to value ratio	Not in the long run exceeding 55%	No more than 65%	50%
Interest coverage ratio	At least 200%	At least 150%	338%
Funding risk			
- average capital tied up	At least 2 years		3.1 years
- proportion maturing within 1 year	No more than 30% of outstanding loans and unutilized credit agreements		9%
- average maturing credit price	At least 1.5 years		3.1 years
- proportion capital market financing*	No more than 75% of outstanding interest bearing liabilities		45%
- liquidity reserve*	Secured credit agreements corresponding to SEKm 750 and 4.5 months upcoming loan maturities		Need: SEKm 3,593 Available: SEKm 7,672
Interest rate risk			
- average interest duration	1.0-3.5 years	-	2.6 years
- proportion maturing within 6 months	At least 20%, no more than 55%	-	40%
Credit and counterparty risk			
- rating restrictions	Credit institutions with high ratings, at least S&P BBB+		Satisfied
Currency risk			
- translation exposure	Shareholders equity is not secured	-	Not secured
- transaction exposure	Handled if exceeding SEKm 25	-	Under SEKm 25

* During the period the mandate in the financial policy were increased concerning proportion capital market financing from 50% to 75%. As a consequence of this the liquidity reserve were increased to cover the proportion maturing within 4.5 months instead of 90 days.

Accounting Principles

Castellum follows the EU-adopted IFRS standards. This interim report has been prepared according to IAS 34 Interim Financial Reporting and the Annual Accounts Act. Disclosures in accordance with IAS 34 Interim Financial Reporting are presented either in the notes or elsewhere in the interim report. Otherwise, accounting principles and methods for calculations have remained unchanged compared with the Annual Report of the previous year.

Opportunities and Risks for Group and Parent Company

Opportunities and risks in the cash flow

Over time, increasing market interest rates normally constitute an effect of economic growth and increasing inflation, which is expected to result in higher rental income. This is partly due to the fact that the demand for premises is thought to increase. This leads, in turn, to reduced vacancies and hence to the potential for increasing market rents. It is also partly due to the fact that the index clause in commercial contracts compensates for increased inflation.

An economic boom therefore means higher interest costs but also higher rental income, while the opposite relationship is true during a recession. The changes in rental income and interest cost do not take place at the exact same time, which is why the effect on income in the short run may occur at different points in time.

Sensitivity analysis - cash flow

Effect on income next 12 months

	Effect on income, SEKm	Probable scenario	
	+/- 1% (units)	Boom	Recession
Rental level / Index	+ 35/- 35	+	-
Vacancies	- 40/+ 40	+	-
Property costs	- 12/+ 12	-	0
Interest costs	- 74/- 29*	-	+

* Due to the interest-rate floor in credit agreements, Castellum is not able to take full advantage of negative interest rates. This results in a negative outcome, even for a one-percentage-point reduction of the interest rate.

Opportunities and risks in property values

Castellum reports its properties at fair value with changes in value in the income statement. This means that the result in particular but also the financial position may be more volatile. Property values are determined by supply and demand, where prices mainly depend on the properties' expected net operating incomes and the buyers' required yield. An increasing demand results in lower required yields and hence an upward adjustment in prices, while a weaker demand has the opposite effect. In the same way, a positive development in net operating income results in an upward adjustment in prices, while a negative development has the opposite effect.

In property valuations, consideration should be taken of an uncertainty range of +/- 5-10%, in order to reflect the uncertainty that exists in the assumptions and calculations made.

Sensitivity analysis - change in value

Properties	- 20%	- 10%	0%	+ 20%	+ 10%
Changes in value, SEKm	- 8,955	- 4,477	-	4,477	8,955
Loan to value ratio	63%	56%	50%	46%	42%

Financial risk

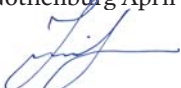

Ownership of properties presumes a working credit market. Castellum's greatest financial risk is to lack access to funding. The risk is reduced by a low loan-to-value ratio and long-term credit agreements.

Annual General Meeting 2016

At the Annual General Meeting on March 17, 2016 decisions were i. e. made on;

- a dividend of SEK 4,90 per share,
- re-election of present members of the Board of Directors Mrs. Charlotte Strömberg, Mr. Per Berggren, Mrs. Anna-Karin Hatt, Mrs. Nina Linander, Mr. Christer Jacobson and Mr. Johan Skoglund. Mrs. Christina Karlsson Kazeem was elected as new member of the Board of Directors. Mrs. Charlotte Strömberg was re-elected as Chairman of the Board of Directors. Further the AGM decided that the level of remuneration to the members of the Board of Directors shall be SEK 2,820,000 in total,
- to appoint a new election committee for the AGM 2017 according to previously applied model,
- guidelines for remuneration to members of the executive management and renewed incentive program to the executive management,
- a renewed mandate for the Board to decide on purchase and transfer of the company's own shares.

Gothenburg April 13, 2016

Henrik Saxborn
Chief Executive Officer

This Interim Report has not been examined by the company's auditors.

Events after the reporting period

After the reporting period, Castellum announced that the Group will be brought together under a single brand, Castellum. The Group will also adopt a new, more unified structure where the six subsidiaries will operate under four regions: West, Stockholm, Mid and Öresund. Meanwhile, work has been initiated to create common support functions and more qualitative, efficient and effective support processes. Furthermore, Castellum is launching strategic initiatives to further develop the Group's joint expertise in a number of key areas such as project development, sustainability solutions and digitalization. The changes are being implemented to strengthen local decision-making and set the form for continued growth.

The work of establishing the new corporate structure and the common brand name will be implemented throughout 2016.

The Castellum Share

The Castellum share is listed on Nasdaq Stockholm Large Cap. At the end of the period the company had about 21,100 shareholders. Shareholders registered abroad cannot be broken down in terms of directly held and nominee registered shares except for two foreign shareholders who has flagged for holding over 5%, Stichting Pensioenfonds ABP and Blackrock. Castellum has no direct registered shareholder with holdings exceeding 10%. The ten single largest shareholders registered in Sweden are presented in the table below.

Distribution of shareholders by country 31-03-2016

The Castellum share price as at 31 March, 2016 was SEK 129.10 (130.30) equivalent to a market capitalization of SEK 21.2 billion (21.4), calculated on the number of outstanding shares.

During the period a total of 59 million (57) shares were traded, equivalent to an average of 963,000 shares (920,000) per day, corresponding on an annual basis to a turnover rate of 147% (140%). The share turnover is based on statistics from Nasdaq Stockholm, Chi-X, Burgundy, Turquoise and BATS Europe. 61% of the trading was done on the Nasdaq, 22% on Chi-X, 9% on Turquoise and 8% on BATS.

Net asset value

Net asset value is the total equity which the company manages to its owners by creating return and growth given a certain level of risk.

The long term net asset value (EPRA NAV) can be calculated to SEK 130 per share (113). The share price at the end of the period was thus 99% (115%) of the long term net asset value.

Net asset value	SEKm	SEK/share
Equity according to the balance sheet	15,556	95
Reversed		
Derivatives according to balance sheet	1,271	8
Goodwill according to balance sheet	- 140	- 1
Deferred tax according to balance sheet	4,593	28
Long term net asset value (EPRA NAV)	21,280	130
Deduction		
Derivatives as above	- 1,271	- 8
Estimated real liability, deferred tax 5%*	- 1,144	- 7
Actual net asset value (EPRA NNAV)	18,865	115

* Estimated real deferred tax liability net has been calculated to 5% based on a discount rate of 3%. Further, assessments have been made that tax loss carry forwards are realized in 2 years with a nominal tax of 22%, giving a present value of deferred tax liability of 21%, and that the properties are realized in 50 years where 33% are sold directly with a nominal tax of 22% and that 67% are sold indirect through company disposals where the buyers tax discount is 6%, which gives a present value of deferred tax liability of 6%.

Earnings

Income from property management adjusted for nominal tax attributable to income from property management (EPRA EPS) amounted to SEK 9.14 (8.41) on rolling annual basis. This results in a share price yield of 7.1% (6.5%) corresponding to a multiple of 14 (15). Income from property management must be adjusted by a long-term increase in the property value.

Net income after tax amounted on rolling annual basis to SEK 18.34 per share (9.09), which from the share price gives a yield of 14.2% (7.0%), corresponding to a P/E of 7 (14).

Dividend yield

The latest carried dividend of SEK 4.90 (4.60) corresponds to a yield of 3.8% (3.5%) based on the share price at the end of the period.

Total share yield

During the last 12-month period the total yield of the Castellum share has been 2.9% (25%), including a dividend of SEK 4.90.

Net asset yield including long-term change in value

In companies managing real assets, such as real estate, the income from property management only reflects part – albeit a large part – of the overall result. The definition of a real asset is that its value is protected. This means that over time – and with proper maintenance – the real asset increases in value to compensate for inflation.

The net asset value – i.e., the denominator of the yield ratio income/capital – is adjusted annually in accordance with IFRS regulations for changes in value. In order to provide an accurate figure of the yield, the numerator – i.e., income – must be similarly adjusted. Therefore, the recorded net income has to be supplemented with a component of value changes as well as with effective tax

to provide an accurate view of income and yield.

One problem is that changes in value can vary greatly between years and quarters, thus leading to volatile results. However, by being a long-term player with stable cash flow and a balanced real estate portfolio, Castellum is able to make use of long-term value changes.

Press release number 13

Gothenburg, April 13th, 2016

Castellum acquires Norrporten and carries out a rights issue as well as a directed share issue to the Second and Sixth Swedish National Pension Funds

Castellum AB (publ) ("Castellum") has today entered into an agreement with the Second and Sixth Swedish National Pension Funds to acquire 100 percent of the shares in Norrporten AB (publ) ("Norrporten") for a cash purchase price of SEK 10.4 billion and 23.4¹ million shares (the "Consideration shares") in Castellum (the "Acquisition"). To finance part of the Transaction, Castellum's Board of Directors has resolved on a fully-underwritten rights issue, conditional on approval from the extraordinary general meeting, with preferential treatment to Castellum's shareholders (the "Rights issue") as well as to call for an extraordinary general meeting to authorize the Board of Directors to resolve on an issue in kind directed to the Second and Sixth Swedish National Pension Funds (the "Issue in kind") (together the "Transaction").

The transaction in brief

- Castellum acquires 100 percent of the shares in Norrporten and will at closing pay SEK 10.4 billion in cash and 23.4¹ million Castellum shares, which amounts to SEK 13.4² billion
- The Second and Sixth Swedish National Pension Funds will receive a total consideration of SEK 14.0 billion, based on an issue price in the Issue in kind of SEK 133 per Castellum share and including a dividend of SEK 464 million, which will be distributed prior to closing
- The cash purchase price will be financed by way of a fully-underwritten rights issue of SEK 6.5 billion and SEK 3.9 billion from unutilized existing and new interest-bearing debt facilities
- Castellum's pro forma property value will increase to SEK 71 billion and the annual pro forma income from property management will increase by more than SEK 900 million from SEK 1.6 billion to SEK 2.5 billion, excluding potential synergies which, on an annual basis, are estimated to amount to SEK 150 million
- Norrporten's property portfolio is composed of high quality, modern and well-invested office properties in attractive locations in each market
- The acquisition of Norrporten complements and strengthens Castellum's market position. Through the acquisition, Castellum's offering of properties and premises increases and the geographic presence broadens

¹ The final number of Consideration shares will be recalculated on the basis of the final terms in the Rights issue and based on a value of each Castellum share equivalent to SEK 133

² Based on the volume-weighted average price of the Castellum share during the 10-day period ending on 12 April, 2016, of SEK 129.49

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

- The acquisition strengthens Castellum's presence and market position in Stockholm, Copenhagen, Helsingborg, Örebro and Jönköping
- The acquisition will result in Castellum making sizeable entries with attractively located properties in Gävle, Sundsvall, Östersund, Umeå, Luleå and Växjö
- The Acquisition is conditional on resolutions on the rights issue and authorization to the Board of Directors of the directed issue of shares to the Second and Sixth Swedish National Pension Funds at the extraordinary general meeting as well as customary competition approval
- Castellum's objective, financial risk measures and dividend policy will remain unchanged following the Transaction

"The acquisition of Norrporten is a strong move forward in Castellum's long-term growth strategy. Norrporten has an attractive property portfolio that complements Castellum's existing portfolio in growth markets around Sweden and Denmark, and which adds properties in a number of new markets where Castellum is not already present. Through the acquisition, we fortify our position as one of Sweden's leading property developers and managers with a focus on remaining local and close to our customers. Our objective will continue to be an annual growth in income from property management of 10 percent at maintained low financial risk. We look forward to continue to deliver value to our shareholders with Norrporten onboard", says Henrik Saxborn, CEO Castellum

"We are proud of Norrporten's development since 2001. Through the sale to Castellum, the company will receive the best possible conditions for continued development. The Second Swedish National Pension Fund has been an owner of Castellum since 2002 and we are positive to increasing our ownership in Castellum through the transaction. For the Second Swedish National Pension Fund, the transaction will result in us taking a further step in our management strategy of, over time, increasing the share of property investments in other markets", says Eva Halvarsson, CEO of the Second Swedish National Pension Fund

"Castellum is a good buyer of Norrporten and we are glad to be able to present this transaction. Castellum and Norrporten have complementary property portfolios and together they become a strong company in the Nordic property market. We are positive to become shareholders in Castellum and expect a continued long-term positive development for the combined company", says Karl Swartling, CEO of the Sixth Swedish National Pension Fund

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

BACKGROUND AND REASONS

Castellum is one of the larger listed property companies in Sweden with a property value of SEK 45 billion, distributed among commercial properties in growth markets in Sweden and Denmark.

Castellum's business concept is to develop and add value to its property portfolio, focusing on the best possible earnings and asset growth, by offering customized commercial properties, through a strong and clear presence in selected growth markets.

Based on this business concept, Castellum has, since its initial public offering in 1997, increased the value of its property portfolio with SEK 35 billion, from SEK 10 billion to SEK 45 billion and increased its market value from SEK 3 billion to SEK 22 billion. In the same period, the annual income from property management has increased by approximately SEK 1,300 million, from SEK 300 million to SEK 1,600 million and distributions to shareholders have been completed equivalent to a total sum of SEK 9,400 million.

Castellum's main objective is that cash flow, that is, income from property management per share (SEK), should grow at an annual rate of at least 10 percent with low financial risk. Selected financial risk measures include a loan-to-value ratio that should not exceed 55% in the long run and an interest coverage ratio of at least 200 percent. Castellum's dividend policy stipulates that at least 50 percent of income from property management before tax should be distributed to shareholders.

The strategy to achieve this objective is in short based on a commercial property portfolio located in markets with favorable underlying growth as well as a strong and clear local customer focus, where property management is conducted efficiently and with a strong market presence.

The Acquisition of Norrporten is a significant and important step for Castellum. Not only because Castellum's property portfolio increases by 60 percent, to SEK 71 billion, but also for a number of other reasons:

- Castellum's property portfolio will increase with attractive located properties in a number of growth markets, where Castellum is already established, for example Stockholm, Helsingborg and Copenhagen, as well as in a number of new markets such as Luleå, Umeå and Sundsvall
- The duration of the lease portfolio is considerably prolonged, as Norrporten's average rental lease term amounts to approximately 4.8 years, which prolongs the corresponding number for the new Group to approximately 3.9 years
- Of Norrporten's rental income, approximately 38 percent is derived from public sector tenants, resulting in an increase in the number of public and community service properties
- Improved profitability from mutual learning regarding sustainability, where Norrporten, together with Castellum, is one of the greenest real estate companies in the Nordic region
- Larger property portfolio, which increases the conditions for continued profitable growth through more investments in own projects, of which a number from Norrporten's interesting building rights
- Norrporten's employees will provide Castellum with complementary skills, relating to, among others, project management, customer value and customer proximity in both existing and new markets
- Positive effects on income from property management per share, partly from significant synergies, but also from increased growth opportunities

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

The purchase price consists of 23.4 million Castellum shares and cash. The Consideration shares will primarily be issued through the Issue in kind, which presupposes the extraordinary general meeting's resolution on authorizing the Board of Directors to resolve on the Issue in kind, but may also include Castellum's holding of 8.0 million treasury shares.

To finance the cash portion of the consideration while maintaining a loan-to-value ratio below 55 percent, Castellum's Board of Directors has resolved on a fully-underwritten rights issue with preferential treatment to Castellum's shareholders of approximately SEK 6.5 billion, conditional on approval from the extraordinary general meeting.

Through these issues, Castellum's pro forma loan-to-value ratio will, following the Transaction and as at 31 March 2016, amount to 54 percent. In addition, Castellum will, following the Acquisition, deepen the evaluation that preceded the Acquisition, with respect to both Castellum's and Norrporten's property portfolios in different markets. This is expected to result in future divestments amounting to approximately SEK four billion, which will refine the property portfolio and decrease the loan-to-value ratio.

The Acquisition is expected to increase the annual income from property management by more than SEK 900 million, excluding annual synergies, and by approximately SEK 1,050 million, including annual efficiency opportunities within administration and property management of SEK 150 million, with full effect within 12-18 months after the closing of the Acquisition. Potential revenue synergies have not been considered in these figures.

Through the Transaction, Castellum will also become a significantly larger property company with a significantly larger market value and two new large shareholders. In total, the Transaction is expected to increase the interest in Castellum from a number of different capital market perspectives.

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. The summary above relates to the properties that Castellum owned as at 31 March 2016 with additions of Norrporten's properties as at 31 December 2015 and reflects the properties' income and costs as if they had been owned throughout the last twelve month period. Adjustments have been made whereby properties divested during the last twelve months period have been removed and net operating income from acquired and/or finalized properties in the last twelve months period have been recalculated to correspond to net operating income as if they had been owned or finalized during the entire period.

¹⁾ Corresponds to Castellum's properties as at 31 March 2016 and Norrporten's properties as at 31 December 2015

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release. N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

Combined property value by category

Combined property value by region

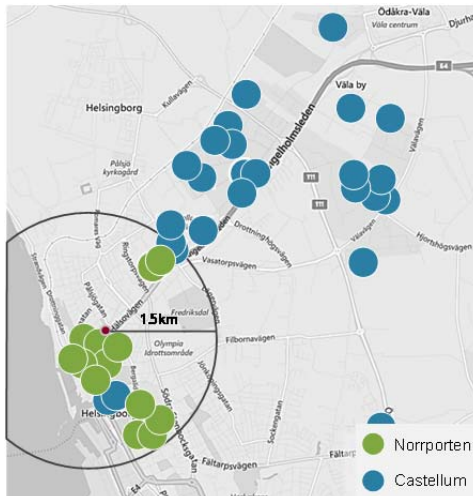

Geographic presence

Norrporten's property portfolio is primarily located in the growth markets Stockholm, Copenhagen, Helsingborg, Örebro and Jönköping – markets where Castellum is already well-established. Norrporten's property portfolio is composed of high quality, modern and well-invested office properties in attractive locations in each market. Approximately 70 percent of Norrporten's property portfolio is located in markets with both a population and an income per person growth rate surpassing the Swedish national average rate in the last five years. Norrporten also has a strong position with public sector tenants and approximately 38 percent of the rental value is derived from this category of tenants.

Examples of complementary property portfolios in the same markets

Helsingborg

Copenhagen

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

The acquisition of Norrporten complements and strengthens Castellum's position significantly, through both a broadened offering of different types of properties and premises as well as in terms of property uses and locations, in markets where Castellum is already established. Opportunities are thereby created to increase, develop and improve the customer offering to both existing as well as to new customers. Additionally, the general quality of the property portfolio is improved and at the same time, the increased market presence and standing in each market strengthens Castellum's position in its collaboration with municipalities and local businesses. In addition, the customer base is broadened and increased with stable and long-term tenants, of which a large portion is composed of public sector tenants.

Norrporten also owns properties in markets where Castellum is not already established, including Sundsvall, Luleå, Umeå, Gävle, Växjö, Östersund. Norrporten's properties in these markets have the same characteristics as Norrporten's properties in other markets, that is, high quality, modern and well-invested office properties in attractive locations in each market. The property portfolios in each market are large enough to facilitate a local and efficient property management with own employees in accordance with Castellum's property management strategy. Castellum's assessment is that even if all of Norrporten's markets are growing, it is unlikely that every market will in the long term qualify into Castellum's core markets in accordance with Castellum's strategy and objective.

PURCHASE PRICE

The total consideration that Castellum shall pay at closing for 100 percent of the shares in Norrporten amounts to SEK 10.4 billion paid in cash and 23.4³ million shares in Castellum, which Castellum will issue through the Issue in kind (presupposing the extraordinary general meeting's resolution authorizing the Board of Directors) of which Castellum's holding of 8.0 million re-purchased shares may be a part of the Consideration shares. Based on the ten days volume weighted average price of Castellum's share of SEK 129, the value of these shares amounts to SEK 3.0 billion

Of the cash purchase price of SEK 10.4 billion, Castellum intends to finance approximately SEK 6.5 billion through the fully-underwritten Rights issue and approximately SEK 3.9 billion by means of unutilized existing and new interest-bearing credit facilities.

The total purchase consideration, as above, amounts to SEK 13.4 billion, which is equivalent to 96.3 percent of the estimated EPRA NAV of Norrporten at an expected closing by June 30, 2016. The estimate is based on Norrporten's EPRA NAV as at 31 December 2015 of SEK 13.5 billion after reduction of Norrporten's proposed dividend of SEK 464 million prior to the closing and with additions from the estimated cash flow from operations as well as expected value changes in the period 1 January – 31 March 2016 of SEK 451 million. In total, this results in an estimated EPRA NAV for Norrporten of SEK 14.0 billion as at 30 June 2016.

Income from property management per share, based on the pro forma earnings capacity as per below, increases by 8.0⁴ percent, excluding synergies, and 14.7⁴ percent including annual synergies of SEK 150 million.

³ The final number of Consideration shares will be recalculated on the basis of the final terms in the Rights issue and based on a value of each Castellum share equivalent to SEK 133

⁴ Adjusted for the bonus issue element in the Rights issue and based on a share price prior to the separation of the subscription rights equivalent to the volume weighted average price in the 10 last trading days of the Castellum share of SEK 129.49

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

THE RIGHTS ISSUE

Castellum's Board of Directors has resolved on a rights issue with preferential treatment for Castellum's shareholders to a total amount of approximately SEK 6.5 billion, conditional on approval by the extraordinary general meeting.

Those who are registered as Castellum shareholders by Euroclear Sweden AB on the record date of the Rights issue, which is expected to be 24 May 2016 have preferential rights to subscribe for shares in the Rights issue in relation to the number of shares that are owned as at the record date.

Subscription of shares can also be done without support of subscription rights.

If not all shares are subscribed for with support of subscription rights, the Board of Directors will resolve on the allocation of shares subscribed for without subscription rights as follows: i) firstly, allocation should be completed to those who have applied for subscription and subscribed for shares with support of subscription rights, regardless if the subscriber was a shareholder at the record date or not, and in case of over-subscription, in relation to the number of subscriptions each has exercised in the subscription of shares and in case this cannot be completed, by means of lottery, ii) secondly, allocation shall be completed to others who have applied for subscription without support from subscription rights and, in case of over-subscription, in relation to the number of shares indicated in each subscription application and in case this cannot be completed, by means of lottery, and iii) thirdly, any remaining shares will be allocated to those who have underwritten the Rights issue, in accordance with the separate underwriting agreement with the Company, and in proportion to the size of their respective underwriting commitments.

The size of the increase of the share capital, the number of shares that will be issued and the subscription price of the new shares is expected to be announced at the latest on 18 May 2016.

The Rights issue is conditional on approval at the extraordinary general meeting as well as customary approval by the Swedish competition authority. If the condition is not fulfilled and the Rights issue is cancelled, the company will refund paid subscription amount as follows. If the paid subscribed shares have been received or purchased, the subscription amount (i.e. the subscription price) will be refunded to the holder of the paid subscribed shares. If subscription and payment has taken place, but the paid subscribed shares have not yet been received, the subscription amount (i.e. the subscription price) will be refunded to the concerned subscriber.

The subscription period is expected to run from, and including, 26 May 2016 until, and including, 9 June 2016, or until the later day resolved by the Board of Directors. Trading in subscription rights is expected from, and including, 26 May 2016 up until, and including, 7 June 2016.

The Board of Directors' resolution on the Rights issue presupposes a follow-on authorization by the extraordinary general meeting planned to be held on Friday, 20 May 2016. For additional information, see the separate press release which is expected to be published around 20 April 2016.

Rights issue underwriters

A syndicate of banks, including among other Carnegie Investment Bank AB, Skandinaviska Enskilda Banken AB (publ), Svenska Handelsbanken AB (publ) and Swedbank AB (publ), have, at certain conditions, committed to, through underwriting commitments, subscribe for any shares not subscribed

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

or paid for by others in the Rights issue, as above, to a sum equivalent to the maximum size of the Rights issue.

Preliminary timetable for the Rights issue

The timetable below is preliminary and may come to be altered.

18 May	Final terms of the Rights issue are announced
20 May	Extraordinary general meeting in Castellum
20 May	Last day of trading in the Castellum share with rights to participate in the Rights issue
24 May	Record date for the Rights issue, that is, shareholders who are registered in the share ledger on this date will receive subscription rights that allow for participation in the Rights issue
25 May	Expected day for publication of prospectus
26 May – 7 June	Trading in subscription rights
26 May – 9 June	Subscription period
14 June	Publication of the outcome of the Rights issue

ISSUE IN KIND

Castellum will direct 23.4 million Castellum shares as part of the consideration for the shares in Norrporten, where the Second and the Sixth Swedish National Pension Funds, respectively, will each receive 11.7 million shares. Castellum currently owns 8.0 million repurchased shares that Castellum may direct as part of the Consideration shares with the support of the resolution from the annual general meeting held on 17 March 2016.

The Consideration shares will be paid in connection with the closing of the Acquisition, which will occur after the Rights issue has been completed. The Consideration shares will therefore not be entitled to participation in the Rights issue, why the final number of Consideration shares will be recalculated based on the final terms of the Rights issue. The recalculation of the final number of Consideration shares will be based on a predetermined per share value of Castellum equivalent to SEK 133, which is a premium of 2.7 percent compared with the volume weighted average price of the last ten trading days during the period from, and including 30 March 2016 to, and including 12 April 2016.

The Issue in kind presupposes that the extraordinary general meeting resolves to authorize the Board of Directors to resolve on an issue in kind for this purpose.

Through the Issue in kind, the Second and the Sixth Swedish National Pension Funds will each become shareholders with approximately five percent of the number outstanding shares and votes in Castellum following the completion of the Transaction. The Consideration shares will carry a so called lock-up of six months.

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

INTEREST-BEARING CREDIT FACILITIES

Castellum will utilize existing unutilized and new interest-bearing credit facilities of approximately SEK 3.9 billion to finance the part of the SEK 10.4 cash purchase price that is not financed through the Rights issue. Based on existing unutilized and new interest-bearing credit facilities, Castellum's unutilized credit facilities will, after deductions for outstanding debt certificates, amount to SEK four billion.

Norrporten's existing interest-bearing bank loans, which as at 31 December 2015 amounted to SEK 12.0 billion, will be assumed by Castellum.

Following the Transaction, Castellum's pro forma interest-bearing liabilities as of 31 March 2016 will amount to approximately SEK 38.6 billion, with an average credit maturity of approximately 2.4 years, average interest rate maturity of approximately 2.8 years and an average interest rate of approximately 2.4 percent, including the effect of interest rate derivatives.

CONDITIONS FOR THE CLOSING OF THE ACQUISITION

Castellum's acquisition of Norrporten is conditional upon the extraordinary general meeting approval of the Rights issue and resolution to authorize the Board of Directors to resolve on the Issue in kind. If this condition is not fulfilled within a specified time period from the signing of the acquisition agreement, both Castellum and Norrporten have the right to terminate the acquisition agreement. Castellum's acquisition of Norrporten is conditional upon customary clearances from the Swedish Competition Authority.

EXTRAORDINARY GENERAL MEETING AND VOTING COMMITMENTS

An extraordinary general meeting in Castellum is planned to be held on 20 May 2016 to both approve the Board of Directors' resolution on the Rights Issue and to resolve on the authorization of the Board of Directors to resolve on the Issue in kind. For further information, please refer to the notice in a separate press release which is expected to be published on or around 20 April 2016.

Shareholders representing in excess of 30 percent of the capital and votes in Castellum, have notified that they are positive to the Transaction and intend to vote in favor of the resolution and the proposal at the extraordinary general meeting for their shares held at the record date.

PRELIMINARY PRO FORMA BALANCE SHEET

A preliminary pro forma balance sheet per 31 March 2016 is presented below with the purpose of describing the financial situation before and after the Transaction. The pro forma balance sheet is solely intended to describe the hypothetical situation of Castellum had the Transaction been completed as of 31 March 2016, based on Norrporten's financial situation as at 31 December 2015. Castellum's opening balance sheet is therefore Castellum's group balance sheet as at 31 March 2016 and Norrporten's opening balance sheet is Norrporten's group balance sheet as at 31 December 2015.

The cash purchase price for 100 percent of the shares in Norrporten that is to be paid upon closing consists of SEK 10.4 billion in cash and 23.4 million Consideration shares.

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

The closing of the Transaction is expected to occur at the latest on 30 June 2016. In relation to Norrporten's group balance as at 31 December 2015, Norrporten may by then have distributed its proposed dividend to its current shareholders of, in total, SEK 464 million. As a result of this, Norrporten's group balance sheet as at 31 December 2015 has been adjusted for the completed dividend of SEK 464 million by decreasing shareholders' equity and increasing interest-bearing liabilities with SEK 464 million in the preparation of the pro forma balance sheet. Castellum estimates that the value of Norrporten's property portfolio as of 31 March 2016 amounted to SEK 26.2 billion, resulting in a positive value development during the period 1 January – 31 March 2016 of SEK 451 million, which is adjusted for in the preparation of the pro forma balance sheet.

In addition, Castellum estimates that Norrporten's cash flow from operations during the period 1 January – 30 June 2016 will amount to approximately SEK 475 million. This means that if the Acquisition had been completed based on Norrporten's financial situation as at 31 December 2015, which is Norrporten's opening group balance sheet to the hypothetical situation which the pro forma balance sheet illustrates, the purchase price for the shares in Norrporten would be SEK 475 million lower than what it will be at the time of closing. As a result of this, the cash portion of the purchase price has been reduced in the preparation of the pro forma balance sheet and amounts to SEK 9.9 billion and, in addition, 23.4 million Consideration shares. In the preparation of the pro forma balance sheet, the Consideration shares have been valued to SEK 3.0 billion, based on the ten day volume weighted average price of the Castellum share of SEK 129 per share. The purchase price for 100 percent of Norrporten that was used in the preparation of the pro forma balance sheet consequently amounts to SEK 12.9 billion.

In the preparation of the pro forma balance sheet, the financing of the Acquisition has been considered by i) The Rights issue has been assumed to amount to approximately SEK 6.5 billion, ii) The Consideration shares that, as per above, were valued at SEK 3.0 billion and iii) utilization of interest-bearing credit facilities of SEK 3.4 billion.

The preliminary pro forma balance sheet also considers that the Acquisition will be accounted as a stock acquisition, which, among other, will result in the creation of a goodwill item related to deferred tax being fully-recognized at the tax rate of 22.0 percent. No transaction costs have been considered in the preliminary pro forma balance sheet.

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

The closing of the Acquisition is expected to occur no later than 30 June 2016, which will impact the final acquisition balance sheet.

SEKm	Castellum 31 MARCH 2016	Castellum pro forma 31 MARCH 2016
Investment properties	44,773	70,975
Goodwill	140	1,814
Receivables and other	391	849
Liquid assets	150	345
Total assets	45,454	73,983
Shareholders' equity	15,556	25,085
Deferred tax liability	4,593	6,452
Derivatives	1,271	1,652
Interest-bearing debt	22,650	38,599
Other liabilities	1,384	2,195
Total shareholders' equity and liabilities	45,454	73,983

PRO FORMA EARNINGS CAPACITY

The estimated annual earnings capacity of Castellum before and after the Transaction is shown below. The estimated earnings capacity is based on the actual outcome for the last twelve month period for the properties owned by Castellum and Norrporten as of 31 March 2016 and 31 December 2015, respectively. Properties that were not owned or projects that were not finalized throughout the entire preceding twelve month period have been recalculated to full year effect and properties that were divested during the preceding twelve months have been excluded. In addition, the following adjustments have been made:

- Norrporten's financial statement line items have been reclassified to match Castellum's financial statement line items
- Non-recurring costs for both Castellum and Norrporten have been excluded

The net interest cost for Castellum before the Acquisition is based on interest-bearing liabilities and an average interest rate of 2.8 percent, including the effect from derivatives as at 31 March 2016. The net interest cost following the Transaction is based on interest-bearing liabilities of SEK 38.6 billion and an average interest rate based on additional interest-bearing debt and Norrporten's existing interest-bearing debt of approximately 2.4 percent, including the effect of derivatives.

Synergies have not been considered in the earnings capacity analysis. Castellum estimates that annual synergies amount to approximately SEK 150 million, which are expected to be fully realized within 12-18 months from the closing of the Acquisition. For additional information, see "Synergies" below.

It is important to note that the estimated earnings capacity should not be considered an estimate for the current year or the coming twelve months. The earnings capacity does not include, for example, any estimate on the level of future rental rates, vacancies or market interest rates. Change in value of properties and financial instruments, which affect Castellum's P&L statement, have not been considered in the earnings capacity.

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

N.B. This press release has been published in Swedish and English. In the event of any discrepancy between these two versions, the Swedish version shall prevail.

SEKm	Castellum 31 March 2016	Castellum pro forma 31 March 2016

FINANCIAL KPIs BEFORE AND AFTER THE ACQUISITION

With the intention to describe the financial effects of the Acquisition, a number of financial KPIs are presented below based on the estimated earnings capacity and preliminary pro forma balance sheet.

	Castellum 31 March 2016	Castellum pro forma 31 March 2016
Income from property management per share, SEK	9.83	10.63 ¹⁾
Net leverage ratio	50%	54%
Interest coverage ratio	354%	377%
Surplus ratio	68%	68%
Long term net asset value (EPRA NAV) per share, SEK	130	132 ¹⁾
Property value per share, SEK	273	299 ¹⁾

¹⁾ Adjusted for the bonus issue element in the Rights issue and based on a share price prior to the separation of the subscription rights equivalent to the volume weighted average price in the 10 last trading days of the Castellum share of SEK 129.49

SYNERGIES

Castellum estimates the annual efficiency opportunities, within administration and property management costs, to approximately SEK 150 million, with full effect within 12-18 months from the closing of the Acquisition. In total, this will increase the pro forma income from property management per share from SEK 10.63 to SEK 11.27. Potential revenue synergies have not been considered in these analyses. However, revenue synergies are expected to result, primarily in markets where Castellum and Norrporten have overlapping property portfolios, through a combination of a strong market position and larger property portfolio, which improves the customer offering and facilitates the customer acquisition process.

Integration costs are estimated to amount to, in total, approximately SEK 25 million and will gradually arise and affect the profits in the 12-18 months following the closing of the Acquisition and will be separately disclosed in Castellum's financial accounts. None of these efficiency opportunities, revenue synergies, integration costs or transaction costs have been considered in the pro forma balance sheet, earnings capacity or in the financial KPIs pre- and post-Transaction shown above.

This press release may not be announced, published or distributed, in whole or in part, directly or indirectly, in the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such publication or distribution would violate applicable laws or rules or would require additional documents to be prepared or registered or require any other actions to be taken, in addition to the requirements under Swedish law. This press release is not a prospectus but an announcement of the board of directors' of Castellum conditional resolution to carry out a new issue of shares with preferential rights for existing shareholders in Castellum and the acquisition of Norrporten. For further information, please refer to "Important notice" in this press release.

Important information

This press release does not contain or constitute an invitation or an offer to acquire, sell, subscribe for or otherwise trade in shares, subscription rights or other securities in Castellum. Invitation to the persons concerned to subscribe for shares in Castellum will only be made through the prospectus that Castellum intends to publish at the company's website, following the approval and registration thereof by the Swedish Financial Supervisory Authority (Sw. *Finansinspektionen*). The prospectus will contain, among other things, risk factors, financial statements as well as information regarding the company's board of directors. This press release has not been approved by any regulatory authority and is not a prospectus and accordingly, investors should not subscribe for or purchase any securities referred to in this press release except on the basis of information provided in the prospectus to be published by Castellum.

In certain jurisdictions, the publication or distribution of this press release may be subject to restrictions according to law and persons in those jurisdictions where this press release has been published or distributed should inform themselves about and abide by such restrictions.

This press release is not directed to persons located in the United States (including its territories and possessions, any state of the United States and the District of Columbia), Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or in any other country where the offer or sale of the subscription rights, paid subscribed shares (Sw. *betalda tecknade aktier*) or new shares is not permitted. This press release may not be announced, published or distributed, directly or indirectly, in or into the United States, Canada, Japan, Australia, Hong Kong, New Zealand, Singapore, South Africa or any other country where such action is wholly or partially subject to legal restrictions or where such action would require additional prospectuses, other offer documentation, registrations or other actions in addition to what follows from Swedish law. The information in this press release may not be forwarded, reproduced or disclosed in such a manner that would contravene such restrictions or would require such additional prospectuses, other offer documentation, registrations or other actions. Failure to comply with this instruction may result in a violation of the United States Securities Act of 1933, as amended (the "Securities Act") or laws applicable in other jurisdictions.

No subscription rights, paid subscribed shares or new shares have been or will be registered under the Securities Act, or with any other securities regulatory authority of any state or other jurisdiction of the United States and no subscription rights, paid subscribed shares or new shares may be offered, sold, resold, transferred, delivered or distributed, directly or indirectly, into or within the United States or on account of such persons other than pursuant to an exemption from, or in a transaction not subject to the registration requirements of the Securities Act, and in compliance with any applicable securities laws of any state or jurisdiction of the United States. No public offering of subscription rights, paid subscribed shares or new shares is made in the United States. There is no intention to register any securities referred to herein in the United States or to make a public offering in the United States.

This press release contains forward-looking statements which reflect Castellum's current view on future events and financial and operational development. Words such as "intend", "will", "expect", "anticipate", "may", "plan", "estimate" and other expressions than historical facts which imply indications or predictions of future development or trends, constitute forward-looking statements. The summary above relates to the properties that Norrporten owned as at 31 December 2015 and reflects the properties' income and costs as if they had been owned throughout the entire period. Adjustments have been made whereby properties divested during the year have been removed and net operating income from acquired/finalized properties has been recalculated as if they had been owned or been finalized throughout the entire period.
